General Notes

1.A.a — Have there been any changes in occupancy classification, machinery, or operations since the last inspection?	YES	N/A	NO
1.A.b — Have there been any changes or repairs to the fire protection systems since the last inspection?	YES	N/A	NO
1.A.c — If a fire has occurred since the last inspection, have all damaged sprinkler system components been replaced?	YES	N/A	NO
1.A.d — Has the piping in all systems been checked for obstructive materials?	YES	N/A	NO
Date last checked (obstruction inspection — recommended every 5 years)			
1.A.e — Have all pumps been tested to their full capacity through the use of hose streams or flow meters within the past 12 months?	YES	N/A	NO
1.A.f — Are gravity, surface, or pressure tanks protected from freezing?	YES	N/A	NO
1.A.g — Are any of the sprinklers installed due for testing or replacement?	YES	N/A	NO
1.B.a — Have the sprinkler systems been extended to all visible areas of the building?	YES	N/A	NO
1.B.b — Does it appear all areas protected by a wet system are above 40 degrees Fahrenheit?	YES	N/A	NO
1.B.c — Are all visible exterior openings protected against the entrance of cold air?	YES	N/A	NO

10. General Notes

Control Valve Row

2.a — Are sprinkler system main control valves and all other valves in the appropriate open or closed position?	YES	N/A	NO
---	-----	-----	----

Control valve row — City Connection

Control valve row — Test Header

Control valve row — Pump / Jockey Pump

Control valve row — Sectional

Control valve row — System

Control valve row — Tank

Water Test Row

3.a — Water supply source

Pressure Fire Pump & Tank

Pressure Fire Pump & City

Pressure Fire Pump & Pond

Water test results — row 1

Water test results — row 2

Water test results — row 3

Water test results — row 4

Water test results — row 5

Water test results — row 6

Water test results — row 7

Wet Systems

4.a — Are gravity, surface, and tanks at the proper water levels?	YES	N/A	NO
---	-----	-----	----

4.b — Are fire department connections in satisfactory condition, coupling free, caps or plugs in place and check valves tight?	YES	N/A	NO
--	-----	-----	----

4.c — Are fire department connections visible and accessible?	YES	N/A	NO
---	-----	-----	----

5.a — No. of wet systems

5.a — Wet systems Make & Model

5.b — Are there antifreeze systems at this facility?

5.c — Date antifreeze systems were tested

5.d — Antifreeze protection temp, system 1

5.d — Antifreeze protection temp, system 2

5.d — Antifreeze protection temp, system 3

5.d — Antifreeze protection temp, system 4

5.d — Antifreeze protection temp, system 5

5.e — Did alarm valves, waterflow alarm indicators, pressure switches, and retards test satisfactorily?

YES

N/A

NO

Dry Systems

6.a — Number of dry systems

6.a — Dry systems Make & Model

6.a — Date of last trip test

6.a — Date of last full flow

6.b — Were low points drained during this inspection?

YES

N/A

NO

6.c — Did all quick opening devices operate satisfactorily?

YES

N/A

NO

6.d — Did all the dry valves operate satisfactorily during this inspection?

YES

N/A

NO

6.e — Is the dry valve area heated?

YES

N/A

NO

Pre Action

7.a — Number of pre-action / deluge systems

7.a — Pre-action / deluge Make & Model

7 — Isolation valve / hose connection above riser?

YES

N/A

NO

Alarms

8.a — Did the alarms operate during testing?

YES

N/A

NO

8.b — Confirmed all signals received by central station?

YES

N/A

NO

Sprinklers Piping

9.a — Do sprinklers generally appear to be in good external condition?

YES

N/A

NO

9.b — Is there a spare headbox and extra sprinklers on the premises?

YES

N/A

NO
